NO DATE SET FOR HIS EXECUTION

SAN FRANCISCO, Aug. 20.—With a death sentence hanging over his head for more than three years, August Geber is gradually growing in from his solitary confinement in a condemned cell in San Quentin, while Warden Hoyle is at a loss to know what to do, as the date of the execution has never been set, owing to the destruction of all records of the trial in the fire of April 18, 1906. Geber was sent to San Quentin on July 18, 1905, by Judge Cook, who sentenced him to be hanged, but failed to set the date. The matter evidently was overlooked, and the fire consumed every document in the case. Now Geber is in the peculiar position of a condemned man who may never go to the gallows, but must continually live with the knowledge that a word from the lips of the judge will send him into eternity. The crime for which Geber is suffering this unusual punishment is the murder of almost an entire German family, with whom he lived for a number of years. Although very poor, they fed and housed Geber.

BRAZIL HAS CHIP ON HER SHOULDER

LONDON, Aug. 20.—The Chronicle publishes an interview with "a gentleman intimately versed in all matters pertaining to South America, particularly the government and finances of Brazil, where he has resided and carried on business for years. He expressed surprise that there should be any doubt of Brazil's intentions of embarking upon the costly venture of warships, and added: "It means war, a war that we in Brazil have known to be inevitable for a long time." He proceeded to explain that the trouble lay with the buffer state of Uruguay, whose principal port is practically commanded by Argentina. Apart from the envy with which Argentina regards Uruguay, the northeast frontier of the latter country, is freely used for the passing of contraband into Brazil. It is probable that unless an amicable arrangement can be reached over Uruguay it will cause a war that cannot be long delayed.

IMPOSSIBLE.

"Truth," sentimentally remarked the press agent, who had just proffered a "true story that really happened lies at the bottom of a well?" "Yes," drearily remarked the dramatic editor, "and it is one of the things which hot air can't raise from there."—Baltimore American.

Hot scrap at the Big Casino tonight. Everybody welcome.

REPORT BIG STRIKE IN VIRGIN TERRITORY

That a big strike has been made on the Elks Consolidated lease on the Yellow Tiger, is the general belief, but no absolute confirmation of the discovery can be secured. Miners working on the ground are keeping very quiet, but a significant confirmation is that the miners working on the property have been buying Yellow Tiger, and they ought to know what they are doing. All the miners will say is that the showing in the west crosscut at the 600-foot level is good, and that they believe that ore will be found, and plenty of it, in the quartz dyke that has now been crosscut for a distance of sixty feet, and the foot will be reached before drifting is started. The dyke has a pitch to the northeast.

Moss Starnes, manager of the property, was not inclined to talk about it, and would neither deny or confirm the discovery.

"Ever since the dyke was entered," he said, "we have been getting good values, and the farther we go the better are the indications, and in the last ten feet seams of pay rock varying from an inch to six inches are in evidence. From the smaller crevices assays on the ore could be secured running away in the hundreds. A peculiar feature of the ore is that it carries native copper in small quantities. I am convinced in my own mind that a mine will be opened up, and that in the near future. The breast of the crosscut is 720 feet below the surface. The Consolidated Elk is owned by John F. Campion, the millionaire mine owner of Denver, and associates, and is a close corporation. The same company also owns 325,000 shares of Yellow Tiger stock."

The importance of the find cannot be overestimated if it has been made, and every indication is that it has. The next nearest shipper is the Florence, one mile to the northwest. The Tiger is away from the beaten trails of the bonanza finds, and the trend of the ledge would take it through the C. O. D., which adjoins, and through the Atlanta ground. The producing area of the district would be increased in the near future so it would be double the size of the present time, and with one mine on the dyke which can be easily traced on the surface, others are bound to follow in short order, and Goldfield would have such a boom as it never saw before.

The Yellow Tiger company was or-

FREE MILLING QUARTZ IN TULE

Miners from the head of Tule canyon, thirty-four miles southeast of Goldfield, yesterday brought news of an important strike on the Swedes claim. A strike was made on the same claim two months ago, which assayed \$218. The panning from the latter strike indicate that it will assay as much, and perhaps more.

The vein, which is free milling, can be traced for half a mile. It is stated that there is no place twelve feet square on the claim that will not pan. There is a network of stringers on the vein.

The high values recently secured were obtained at the grass roots, all of the ore having been taken out at a depth of not more than two feet. A bond upon the property has been secured by A. Long and I. M. Martin.

There are several other claims in the Upper Tule canyon which give promise of good returns. Shipaway, three miles from the Swedes claim, has several sacks of high grade on the dump, as has also Mr. Rankin, whose claim is in the same vicinity. —Goldfield Tribune.

MARKET CLOSED STRONG.

NEW YORK, Aug. 20.—The reactional tendency of the stock market which became so pronounced at yesterday's late operations, gathered fresh momentum today, resulting in temporary losses in a number of active issues. Stocks closed strong under the lead of Southern Pacific, which reached high price under this movement. Bonds were irregular.

OYSTER BAY DENIAL.

OYSTER BAY, Aug. 20.—A published report that President Roosevelt had offered to take the stump for Taft this fall was denied today by Rudolph Forster, the president's assistant secretary. He said no such offer had been made and reiterated the statement that the president would make no campaign speeches.

HARDENED.

"Your daughter has a wonderful ear for music." "Yes," answered Mr. Cumrox wearily, "seems like it can stand most anything."—Washington Star.

ganized three years ago by H. A. Reidel of Denver, and it is understood that the original incorporators have sold about all their stock and the control is held by parties who own big blocks. —Goldfield Tribune.
